

## What is iText DITO?

iText DITO is our low-code document document generator for creating and maintaining your data-driven templates and forms. Our dual approach to PDF document generation combines the ease-of-use of a familiar template designer, together with a powerful, platform-agnostic backend that ties in neatly with your IT systems for high-performance processing.

- ✓ Produce large quantities of PDFs very quickly.
- ✓ Comply with accessibility regulations, effortlessly.
- ✓ Unburden your developers with more approachable template design.
- ✓ Save time and money all throughout the document life cycle.

**Smart tip:** Did you know iText DITO is built on the award winning iText 7 PDF SDK? All of the power of iText 7 Core – no coding skills required.

## How does iText DITO work?

With iText DITO, you can rely on a two-stage approach for maximal convenience, and high-throughput document processing.

### DESIGN

iText DITO’s web-based template design studio offers a familiar environment for crafting smart document templates. Easily link up data in your designs with data bindings and document previews.

### INTEGRATION

The powerful iText 7 powered PDF engine speaks your platform’s language. Hook it up in no time using the Java SDK, or by deploying to Docker, to start cranking out PDF documents.

Dynamically insert **images** from input data or resources

**Auto expand tables and lists** based on arrays in the data collection

Apply **conditional logic** to insert and format content

**Format data** as text, number, currency, percentage or date/time

**Calculate** subtotals, discounts, tax amounts and more

Generate **barcodes** from numeric data or URLs

Harness the power of PDF

## Features

### Enterprise Grade

iText DITO is scalable, robust, capable of mass volume and ideal for large enterprise usage.

### Universal Accessibility

By building on top of our flagship PDF library, iText DITO is able to produce PDF/UA compliant documents out-of-the-box. Comply with the ADA Act, Section 508 or the WCAG without even trying.

### Visual Template Designer

iText DITO uses an interface to build templates via drag and drop, replacing cumbersome coding.

### Fast and Convenient

iText DITO reduces the time to develop templates. It makes both maintenance and updating of templates easier and faster.

### iText DITO API

The iText DITO API gives developers the flexibility to integrate its functionality into existing processes and can be customized to meet your document workflow requirements. It is available as either a Java SDK or a Docker image with a straightforward and programming language agnostic RESTful API for convenient deployment and scaling

## We're also developers!

In our 20 years of code, we know how important it is to have good documentation, and good processes in place. You can always find comprehensive documentation and code examples online. Commercial customers can also count on our world-class in-house customer support, offering direct access to expert assistance from our development team.
