

The Latest iText 8:

Your Complete Solution.

Introducing the latest version (v.8) of iText 8, an updated and expanded version of the popular iText 5/iTextSharp SDK.

This suite includes the latest open-source iText Core PDF library and high-value add-ons to meet your diverse document management needs. With iText 8, you get:

Compliance Confidence

Always meet industry and ISO standards with iText 8's continuous PDF standards compliance, including PDF 2.0 support.

Secure Signatures

Trust in industry-leading digital signatures, PAdES/CadES support, and FIPS 140-2 security.

Comprehensive Protection

Ensure data security, document integrity, and compliance with modern standards through encryption and redaction.

Effortless Templating

Easily convert HTML/XML to precise PDFs with improved templating for accurate rendering.

Scalability

Seamlessly handle large PDF volumes for internal and customer applications.

Accessibility

Adhere to global accessibility standards, creating tagged PDFs for all readers.

Dedicated Support

Access professional support and in-depth documentation for peace of mind.

Why Upgrade Your iText 8?

Elevate your document management experience by upgrading from iText 5 to iText 8, a comprehensive solution boasting compliance with modern PDF standards, top-tier security features, and a plethora of add-ons to meet your evolving needs.

Embrace Modern PDF Standards

Upgrade your document management game with iText 8 and ensure compliance with the latest PDF standards. Unlike iText 5, our newer version meets the PDF 2.0 standard, incorporating crucial features like FIPS compliance and SHA-3 hash functions for signatures.

Future-Proof Scalability

Your use cases are evolving, and you need more than just a PDF library. iText 8 offers a range of add-ons, including pdfHTML, pdfOCR, and secure redaction.

Universal Accessibility and Compliance

Compliance with global standards is crucial, especially for regulated industries and public institutions. iText 8 supports PDF/A and PDF/UA, ensuring your documents meet accessibility regulations like ADA and Section 508 in the US.

Robust Encryption

In today's world, security is paramount. iText 8 offers support for modern encryption standards, while ensuring your documents are secure and compliant with the latest requirements.
